OUR VISION, MISSION AND VALUES

VISION

"To be recognized as a Pioneer Inspection/Survey Services Provider in the marine surveying industry through honesty, integrity, and hard work, and to become a preferred and well-recognized business partner within the maritime industry. With some of the best workforce and the latest infrastructure and equipment available with us, we meet our clients' needs and keep exploring ways and areas of improvisation that render value for money."

MISSION

"To perform Inspection/Survey services in a manner which will help us achieve the economic and social welfare of our maritime industry and our community by meeting the deadlines our customers expect. With our highly qualified surveyors/staff and quick response to customer requirements, along with fast and timely delivery of documentation, these are key objectives. We foster strong ethical values and a team spirit that rewards commitment, loyalty, and initiative, with a mission focused on welfare, training, and expertise as the core of our success endeavours."

WHO WE ARE

We provide a wide range of marine and cargo surveys & superintendence services, including marine claim surveys, marine surveys/inspections, container inspections, vessel on-board operations/surveys, project and ODC cargo, liquid cargo, draught surveys, tank surveys, and PSIA. The formation of the company was inspired by the perceived need for an independent specialist organization to provide a comprehensive range of surveillance and supervisory services in line with modern concepts, quality assurance, environmental protection, and reliance on integrity and experience.

Our surveyors, cargo superintendents, and inspectors are experienced marine officers, supported by highly qualified chemists with extensive experience in the petroleum and petrochemical industry, marine surveying, and cargo inspection activities.

Our team of qualified and accredited inspectors caters to inspection needs with sound knowledge and strong professional expertise. Inspections are performed in a precise manner, adhering to globally acceptable standards.

DTAMISSPL inspects and samples a wide range of products for safety, quality, and performance to ensure compliance with various regulatory standards.

HOW WE ORGANISE AND OPERATE

**DTA
GROUP OF
COMPANIES**

At DTAMISSPL, we set industry benchmarks through quality-driven, reliable, and timely inspection services. Our experienced surveyors strictly follow well-defined Standard Operating Procedures (SOPs), ensuring accurate, transparent, and factual reporting to the appropriate authorities at every stage.

Supported by a technically proficient and skilled team, we deliver a wide range of surveys and inspections with efficiency and professionalism. Our well-coordinated on-field operations ensure smooth execution without delays or disruptions.

We provide comprehensive inspection solutions that enable the safe and secure movement of goods, minimizing risks related to improper handling, lashing, and chocking, and reducing delays, damage, and post-delivery issues.

Guided by strong core values, DTAMISSPL focuses on building long-term, trust-based partnerships, delivering superior services and sustained value to clients across India and international markets.

Teamwork is the ability to work together towards a common vision.

The ability to direct individual accomplishments towards organizational objectives. It is the fuel that allows common people to attain uncommon results.

MANAGING DIRECTOR PROFILE

Mr. Nooruddin Bargir, MIIMS, MIAMCS
Managing Director of DTA GROUP OF COMPANIES.

Mr. Nooruddin Bargir is the Managing Director of DTA Marine Inspections and Survey Services Pvt. Ltd., India, and Proprietor of NOOR DTA Marine Services Co. LLC, UAE. With over 25 years of professional experience, he is a highly accomplished Marine Surveyor and Consultant specializing in marine, cargo, vessel, container, and industrial inspections.

He has successfully led inspection and survey operations at major ports, container freight stations, depots, warehouses, and industrial facilities across India, the UAE, and international locations. His expertise spans bulk, breakbulk, containerized, project, refrigerated, and high & heavy cargo, as well as ISO tanks, RoRo cargo, seaworthiness surveys, draught surveys, P&I Club inspections, and marine claims.

Mr. Bargir is widely recognized for his technical competence in Empty Container Depot management, compliance with IMO, IMDG, IACS, DGFT, and international standards, and his ability to deliver accurate, timely, and client-focused inspection solutions. Under his leadership, the company is supported by a strong team of experienced marine surveyors, engineers, and master mariners, along with an extensive international associate network.

EXECUTIVE DIRECTOR PROFILE

DTA
GROUP OF
COMPANIES

Capt. Akbar M. Khalape, MSc (UK), FICS
Master Mariner | Maritime & Port Infrastructure Expert

Capt. Akbar M. Khalape is a highly respected maritime and port infrastructure professional with over 45 years of global experience across shipping, marine operations, port development, offshore logistics, project management, and quality systems. A Master Mariner with advanced academic credentials from the UK, he uniquely combines deep seagoing expertise with strategic leadership at the highest corporate and governmental levels.

He has played a pivotal role in the planning, privatization, and development of major Indian ports, leading multi-million-dollar infrastructure projects in Odisha, Haldia, and Kakinada, and contributing to India's first environmental clearance for a greenfield private port. His experience spans feasibility studies, environmental compliance, rail and road connectivity planning, fleet management, offshore operations, and organizational restructuring.

Capt. Khalfay has held senior leadership roles across international maritime hubs including India, the UK, Hong Kong, Singapore, Japan, and Southeast Asia. He is a Fellow of the Institute of Chartered Shipbrokers (London) and an accomplished advisor known for delivering complex maritime and infrastructure projects with precision, safety, and long-term value.
